

Biotechnology Professionals List

Renowned scientists (Just a few) who have made significant contributions to the field of biotechnology:

1.

Herbert Boyer

Co-founder of Genentech, a pioneer in genetic engineering.

3.

Hamilton O. Smith

Awarded the Nobel Prize in Physiology or Medicine for discovering site-directed mutagenesis.

5.

Arthur Kornberg

Nobel laureate for his research on DNA replication.

7.

Harold Varmus

Nobel laureate for his research on cancer and growth factors.

9.

Rosalind Franklin

Known for her work on X-ray diffraction images of DNA, which led to the discovery of DNA's double helix structure.

11.

Emmanuelle Charpentier

Co-discoverer of CRISPR-Cas9 gene-editing technology.

13.

Frances Arnold

Nobel laureate for the directed evolution of enzymes.

15.

Andrew Fire

Nobel laureate for his discovery of RNA interference.

17.

Richard Roberts

Nobel laureate for the discovery of split genes and mRNA splicing.

19.

Cynthia Kenyon

Known for her work in the molecular biology of aging.

21.

Feng Zhang

A prominent researcher in CRISPR gene-editing technology.

23.

Pamela Silver

Known for her work in synthetic biology and bioenergy.

25.

Katalin Karikó

Contributed to the development of mRNA vaccine technology.

27.

Richard H. Ebright

A prominent scientist in molecular biology and biochemistry.

Biotechnology Professionals List

29.

Nina Fedoroff

Known for her work in plant molecular biology and biotechnology.

31.

Bert Vogelstein

A leading cancer researcher known for his work on the genetic basis of cancer.

33.

Luc Montagnier

Nobel laureate for the discovery of the human immunodeficiency virus (HIV).

35.

Carol Greider

Nobel laureate for her discoveries of the telomerase enzyme.

37.

Sydney Brenner

Nobel laureate for his pioneering work in deciphering the genetic code.

39.

James Watson

One of the co-discoverers of the DNA double helix structure.
