Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Biochemistry Internship Topics and Focused Areas

AI Carbohydrate Biochemistry Research

- Machine Learning Models for Carbohydrate Structure Prediction
- Natural Language Processing for Glycomics Literature Mining
- AI-Driven Drug-Carbohydrate Interaction Analysis
- Metabolic Pathway Optimization Using AI and Systems Biology
- Image Analysis and Pattern Recognition in Carbohydrate Spectroscopy

AI Structural Biochemistry Research

- Protein Structure Prediction using Deep Learning
- Molecular Docking and Drug-Ligand Interaction Analysis
- Enzyme Kinetics Modeling and Structural Analysis
- Cryo-EM Data Processing and 3D Reconstruction
- Protein-Protein Interaction Mapping and Network Analysis

Drug Metabolism & Pharmacokinetics Research

- Phase I Drug Metabolism Pathways
- Phase II Conjugation Reactions & Bioavailability
- Pharmacokinetic Parameter Estimation & ADME Modeling
- Drug-Drug Interaction & CYP450 Inhibition Studies
- Metabolite Identification & Toxicology Assessment

DNA Repair Enzyme Characterization

- Base Excision Repair (BER) Enzyme Kinetics
- Nucleotide Excision Repair (NER) Protein-DNA Interactions
- Mismatch Repair (MMR) Enzyme Expression and Purification
- DNA Polymerase Fidelity in Repair Pathways
- High-Resolution Structural Analysis of Repair Complexes
