Bengaluru

Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

CDM Internship Topics and Focused Areas

AI Clinical Data Management Automation Research

- Clinical Data Extraction and Standardization

- AI-Driven Data Quality Assessment and Validation
- Federated Learning for Privacy-Preserving Clinical Data Analysis
- Temporal Data Mining and Clinical Event Sequencing
- Bias Detection and Mitigation in Clinical AI Systems

Machine Learning EDC Optimization Research

- Predictive Modeling for Energy Demand Forecasting
- Feature Engineering and Data Preprocessing for Clinical Datasets
- Reinforcement Learning for Resource Allocation Optimization
- Anomaly Detection and Data Quality Assessment in EDC Systems
- Hyperparameter Optimization and Model Selection for Clinical ML Applications

AI Data Cleaning & Validation Research

- Anomaly Detection in Multimodal Datasets
- Automated Data Schema Inference and Validation
- Natural Language Processing for Data Quality Assessment
- Privacy-Preserving Data Cleaning and De-identification
- Crowdsourced Data Validation and Quality Control Systems

AI Database Lock Optimization Research

- Deadlock Detection Algorithms in Distributed Databases
- Lock Escalation and De-escalation Strategies
- Optimistic Locking vs Pessimistic Locking Performance Analysis
- Multi-Version Concurrency Control (MVCC) Optimization
- Lock Timeout and Wait Management in Database Systems

AI Medical Coding Automation Research

- ICD-10 Code Prediction Using NLP Models
- Clinical Documentation Quality Assessment Framework
- Medical Code Extraction from Unstructured Data
- Healthcare Coding Compliance and Audit Automation
- Multi-Specialty Code Recommendation Engine

Electronic Health Record Integration Interoperability

- HL7 FHIR Standard Implementation and Validation
- Data Mapping and Semantic Interoperability Protocols
- Security and Privacy in Healthcare Data Exchange
- Clinical Data Quality Assessment in Integrated Systems

- Blockchain and Distributed Ledger Technology for EHR Interoperability

Pharmacokinetic Data Standardization & Analysis

- PK Parameter Extraction and Data Harmonization
- Population Pharmacokinetics (PopPK) Model Development
- Bioanalytical Data Quality Assessment and Validation
- Pharmacokinetic-Pharmacodynamic (PK/PD) Integration
- Clinical Trial Data Standardization Using CDISC Standards

Regulatory Submission Data Preparation Automation

- Automated Data Validation Frameworks for Regulatory Submissions
- Machine Learning Models for CDM Data Quality Assessment
- Natural Language Processing for Regulatory Requirement Extraction
- Intelligent Data Mapping and Standard Conversion Pipelines
- Automated Submission Package Generation and Compliance Verification
