Clinical Immunology Internship Categories

AI Autoimmune Disease Clinical Research https://internships.nthrys.com/clinical-immunology/ai-autoimmune-disease-clinical-research	Machine Learning Immunodeficiency Research https://internships.nthrys.com/clinical-immunology/machine-learning-immunodeficiency-research
AI Allergen Immunotherapy Research https://internships.nthrys.com/clinical-immunology/ai-allergen-immunotherapy-research	AI Transplant Immunology Research https://internships.nthrys.com/clinical-immunology/ai-transplant-immunology-research
AI Immune Checkpoint Therapy Research https://internships.nthrys.com/clinical-immunology/ai-immune-checkpoint-therapy-research	AI Cytokine Biology Clinical Research https://internships.nthrys.com/clinical-immunology/ai-cytokine-biology-clinical-research
AI Clinical Vaccine Immunology Research https://internships.nthrys.com/clinical-immunology/ai-clinical-vaccine-immunology-research	AI Inflammation & Innate Immunity Research https://internships.nthrys.com/clinical-immunology/ai-inflammation-innate-immunity-research
AI COVID Long-Term Immune Research https://internships.nthrys.com/clinical-immunology/ai-covid-long-term-immune-research	AI Immune Aging & Senescence Research https://internships.nthrys.com/clinical-immunology/ai-immune-aging-senescence-research
T Cell Receptor Sequencing Clinical Analysis https://internships.nthrys.com/clinical-immunology/t-cell-receptor-sequencing-clinical-analysis	B Cell Dysfunction Immunophenotyping Studies https://internships.nthrys.com/clinical-immunology/b-cell-dysfunction-immunophenotyping-studies
Regulatory T Cell Therapy Development https://internships.nthrys.com/clinical-immunology/regulatory-t-cell-therapy-development	Complement System Dysfunction Assessment https://internships.nthrys.com/clinical-immunology/complement-system-dysfunction-assessment
NK Cell Cytotoxicity Functional Assays https://internships.nthrys.com/clinical-immunology/nk-cell-cytotoxicity-functional-assays	Monoclonal Antibody Immunogenicity Studies https://internships.nthrys.com/clinical-immunology/monoclonal-antibody-immunogenicity-studies
Dendritic Cell Maturation Phenotyping https://internships.nthrys.com/clinical-immunology/dendritic-cell-maturation-phenotyping	Hypersensitivity Reaction Mechanism Analysis https://internships.nthrys.com/clinical-immunology/hypersensitivity-reaction-mechanism-analysis
Immune Reconstitution Inflammatory Syndrome https://internships.nthrys.com/clinical-immunology/immune-reconstitution-inflammatory-syndrome	Mucosal Associated Lymphoid Tissue Research https://internships.nthrys.com/clinical-immunology/mucosal-associated-lymphoid-tissue-research
Mast Cell Tryptase Biomarker Development https://internships.nthrys.com/clinical-immunology/mast-cell-tryptase-biomarker-development	Primary Immune Deficiency Genetic Screening https://internships.nthrys.com/clinical-immunology/primary-immune-deficiency-genetic-screening
Immune Tolerance Induction Mechanisms https://internships.nthrys.com/clinical-immunology/immune-tolerance-induction-mechanisms	Basophil Activation Test Development https://internships.nthrys.com/clinical-immunology/basophil-activation-test-development
Gut Microbiome Immune Axis Studies https://internships.nthrys.com/clinical-immunology/gut-microbiome-immune-axis-studies	Immune Thrombocytopenia Pathogenesis Research https://internships.nthrys.com/clinical-immunology/immune-thrombocytopenia-pathogenesis-research
Immunoglobulin Subclass Deficiency Analysis https://internships.nthrys.com/clinical-immunology/immunoglobulin-subclass-deficiency-analysis	Innate Lymphoid Cell Phenotyping https://internships.nthrys.com/clinical-immunology/innate-lymphoid-cell-phenotyping
Immune Checkpoint Inhibitor Toxicity Monitoring https://internships.nthrys.com/clinical-immunology/immune-checkpoint-inhibitor-toxicity-monitoring	Antinuclear Antibody Pattern Classification https://internships.nthrys.com/clinical-immunology/antinuclear-antibody-pattern-classification
Immune Complex Deposition Quantification https://internships.nthrys.com/clinical-immunology/immune-complex-deposition-quantification	Lymph Node Biopsy Immunohistochemistry https://internships.nthrys.com/clinical-immunology/lymph-node-biopsy-immunohistochemistry
Thymic Function Assessment Pediatric Immunology https://internships.nthrys.com/clinical-immunology/thymic-function-assessment-pediatric-immunology	Autoimmune Polyendocrine Syndrome Screening https://internships.nthrys.com/clinical-immunology/autoimmune-polyendocrine-syndrome-screening
Immunoglobulin E Mediated Allergy Testing https://internships.nthrys.com/clinical-immunology/immunoglobulin-e-mediated-allergy-testing	Granule Cytotoxic Protein Release Assays https://internships.nthrys.com/clinical-immunology/granule-cytotoxic-protein-release-assays

Cytokine Polarization T Helper Cell Differentiation https://internships.nthrys.com/clinical-immunology/cytokine-polarization-t-helper-cell-differentiation	Pemphigus Vulgaris Desmoglein Autoantibody https://internships.nthrys.com/clinical-immunology/pemphigus-vulgaris-desmoglein-autoantibody
Common Variable Immunodeficiency Characterization https://internships.nthrys.com/clinical-immunology/common-variable-immunodeficiency-characterization	Systemic Lupus Erythematosus Biomarker Discovery https://internships.nthrys.com/clinical-immunology/systemic-lupus-erythematosus-biomarker-discovery
Vasculitis Associated Antineutrophil Cytoplasmic https://internships.nthrys.com/clinical-immunology/vasculitis-associated-antineutrophil-cytoplasmic	Atopic Dermatitis Immune Dysfunction Profiling https://internships.nthrys.com/clinical-immunology/atopic-dermatitis-immune-dysfunction-profiling
Transient Hypogammaglobulinemia Infancy Follow-up https://internships.nthrys.com/clinical-immunology/transient-hypogammaglobulinemia-infancy-follow-up	Celiac Disease Tissue Transglutaminase Antibody https://internships.nthrys.com/clinical-immunology/celiac-disease-tissue-transglutaminase-antibody
Graft Versus Host Disease Immune Profiling https://internships.nthrys.com/clinical-immunology/graft-versus-host-disease-immune-profiling	Rheumatoid Factor Rheumatoid Arthritis Assessment https://internships.nthrys.com/clinical-immunology/rheumatoid-factor-rheumatoid-arthritis-assessment
Hashimotos Thyroiditis Thyroid Peroxidase Antibody https://internships.nthrys.com/clinical-immunology/hashimotos-thyroiditis-thyroid-peroxidase-antibody	IgA Nephropathy Immune Deposit Characterization https://internships.nthrys.com/clinical-immunology/iga-nephropathy-immune-deposit-characterization
Hyperimmunoglobulin E Syndrome Immune Evaluation https://internships.nthrys.com/clinical-immunology/hyperimmunoglobulin-e-syndrome-immune-evaluation	Immune Response Recovery Post Vaccination https://internships.nthrys.com/clinical-immunology/immune-response-recovery-post-vaccination

Clinical Immunology Internship Topics and Focused Areas

Regulatory T Cell Therapy Development

- Treg Cell Differentiation and Phenotyping
- Suppressive Function Assessment of Treg Cells
- Ex Vivo Treg Expansion and Engineering
- Treg Cell Stability and Plasticity Analysis
- Treg-Based Biomarker Discovery for Clinical Translation
