Clinical Research Internship Topics and Focused Areas

AI Real-World Evidence Clinical Research

- Real-World Data Integration and Harmonization
- Machine Learning Models for Patient Outcome Prediction
- Real-World Evidence Study Design and Protocol Development
- Natural Language Processing for Clinical Text Mining
- Regulatory and Real-World Data Governance

Patient Informed Consent Process Research

- Informed Consent Document Comprehension Analysis

- Digital Consent Process Implementation and Usability Testing
- Vulnerable Population Consent Protocol Development
- Consent Bias and Decision-Making Factors Research
- Regulatory Compliance and Consent Documentation Auditing
