Focused Areas

Hyderabad

Accommodation Location

## How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

## Clinical Trials Internship Categories

|                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                    |

# Clinical Trials Internship Topics and Focused Areas

## Clinical Trial Bioanalysis Methods

- Liquid Chromatography-Mass Spectrometry (LC-MS/MS) Method Development
- Bioanalytical Sample Preparation and Extraction Techniques
- Pharmacokinetic (PK) Parameter Analysis and Data Interpretation
- Bioanalytical Method Validation and Quality Control Standards
- Immunoassay Development for Biomarker Detection in Clinical Trials
