Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Embryology Internship Topics and Focused Areas

AI Early Embryo Development Research

- Machine Learning Classification of Embryonic Cell States
- Morphogenetic Pattern Recognition in Time-Lapse Embryo Imaging
- Transcriptomic Data Analysis of Early Developmental Signaling Pathways
- Computational Modeling of Embryonic Cell Lineage Specification
- Deep Learning Applications for Embryo Morphology Assessment and Quality Prediction

AI In Vitro Fertilization Science Research

- Machine Learning for Embryo Morphology Classification
- Computational Analysis of Sperm Motility Parameters
- Predictive Modeling for IVF Treatment Outcomes
- Image Processing for Oocyte Maturation Assessment
- Genetic Screening Data Integration and Analysis

Birth Defect Etiology Investigation

- Chromosomal Abnormality Mapping in Congenital Malformations
- Teratogen Exposure Assessment and Documentation
- Gene Expression Analysis in Developmental Pathways
- Animal Model Phenotyping for Birth Defect Research
- Epigenetic Modifications and Embryonic Development Dysfunction
