Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Embryomics Internship Categories

AI Multi-Omics Embryo Profiling Research https://internships.nthrys.com/embryomics/ai-multi-omics-embryo-profiling-research	Machine Learning Embryo Transcriptomics Research https://internships.nthrys.com/embryomics/machine-learning-embryo-transcriptomics

Embryomics Internship Topics and Focused Areas

Organoid Development Omics Integration

- Transcriptomic Profiling of Organoid Differentiation
- Proteomics-Based Organoid Characterization
- Single-Cell Omics Integration in Organoid Systems
- Metabolomic Analysis of Organoid Development
- Multi-Omics Data Integration and Systems Biology Modeling

Maternal-Embryo Interface Immunomics

- Placental Immune Cell Profiling
- Cytokine Signaling Pathways in Early Pregnancy
- Trophoblast-Immune Cell Interactions
- Decidualization and Immune Remodeling
- Immunological Biomarkers for Pregnancy Complications

Embryo Stress Response Mechanisms

- Oxidative Stress Biomarkers in Early Embryonic Development
- Molecular Signaling Pathways in Embryo Heat Stress Response
- Epigenetic Modifications Under Embryonic Environmental Stress
- Metabolic Adaptation and Energy Metabolism in Stressed Embryos
- Embryonic Immune Response Activation and Innate Immunity

Embryonic Innate Immunity Activation

- Pattern Recognition Receptor (PRR) Signaling in Early Embryos
- Cytokine and Chemokine Production During Embryonic Immune Activation
- Innate Lymphoid Cell (ILC) Differentiation and Function in Embryonic Tissues
- Interferon Response Pathways in Embryonic Development
- Maternal-Fetal Immune Tolerance and Embryonic Innate Immunity Balance

Developmental Gene Dosage Imbalance Effects

- Gene Dosage Compensation Mechanisms in Early Embryonic Development
- Aneuploidy-Induced Developmental Abnormalities in Model Organisms
- Transcriptomic Profiling of Gene Dosage-Imbalanced Embryos
- Haploinsufficiency and Triplosensitivity in Developmental Signaling Pathways
- Epigenetic and Chromatin-Level Responses to Gene Dosage Imbalance
