

Careers in Immunohistochemistry

Histotechnologist

Prepares tissue samples for staining. Growth: Moderate.
2.

Pathologist Assistant

Supports pathologists. Growth: High.
4.

Biomedical Laboratory Technician

Conducts lab tests. Growth: Stable.
6.

Histology Sales Representative

Sells lab equipment and reagents. Growth: Stable.
8.

Histology Technologist Trainer

Trains lab personnel. Growth: Moderate.
10.

Non-Technical Careers

11.

Healthcare Administrator (Histology)

Manages lab facilities. Growth: Stable.
13.

Sales Representative (Histology)

Sells lab products. Growth: Stable.
15.

Market Research Analyst (Medical Devices)

Analyzes market trends. Growth: High.
17.

Histology Technician Trainer

Educates new technicians. Growth: Moderate.
19.

Pathology Billing Specialist

Manages billing. Growth: Moderate.

Histology Professor

Teaches and conducts research. Growth: Moderate.
22.

Lecturer (Histology)

Educates students. Growth: Stable.
24.

Histology Curriculum Developer

Designs educational programs. Growth: Moderate.

Histology Lab Manager (Industry)

Manages lab operations. Growth: Moderate.
27.

Quality Assurance Manager (Histology)

Ensures quality. Growth: Stable.
29.

Histology Project Manager

Manages projects. Growth: Moderate.

Histopathologist

Diagnoses diseases. Growth: Moderate.

Careers in Immunohistochemistry

32.

Molecular Pathologist

Studies genetics. Growth: High.

34.

Histology Workflow Analyst

Optimizes lab processes. Growth: Moderate.

36.

Histology Informatics Specialist

Manages data. Growth: High.

38.

Histology Data Analyst

Analyzes research data. Growth: High.

40.
