According to a massive study from MONEY and Payscale.com SAS Analytics skills are the most valuable skills to have in today's job market.

The study analyzed 54 million employee profiles across 350 industries with 15,000 job titles from entry level workers to top executives.

The result is a list of top 21 skills considered to be the most valuable by employers with SAS skills topping the list. The study attributes this to the rise of big data adding "companies can use this information to do things like target new customers, improve service, and offer more personalized products-as long as they employ folks who understand how to organize, analyze, and apply it."

Career opportunities abound as demand for SAS talent soars at more than 80,000 customer sites around the world.
