General Anatomy

The complete anatomy foundation for dental graduates and postgraduates — weighted toward detailed head-and-neck anatomy (skull, jaws, TMJ, muscles, cranial nerves, vasculature, lymphatics, oral cavity, fascial spaces) and extended across systemic gross anatomy, general histology and embryology, neuroanatomy, surface and radiographic anatomy, and digital 3D anatomy. Every module is delivered through structured dissection, specimen, microscopy and imaging-anatomy teaching.

Sub-Streams at a Glance

This catalogue lists every General Anatomy training protocol delivered at the NTHRYS Dental Sciences centre, organised under the **GA** department across 33 specialist sub-streams. Each protocol carries a unique code, a defined duration and a per-protocol fee, and may be combined into custom fellowship tracks. Protocols are pitched at practising specialists, postgraduates and digital-laboratory technologists.

How the Programme is Built

Fees are tiered by clinical and technological complexity — from advanced core restorative protocols through implant, maxillofacial, digital, robotic and bioengineered streams. Per-protocol fees range from ₹ 7,500 to ₹ 24,000, with the complete department representing ₹ 14,88,500 of specialist training across 849 hours.
