

## Leachate Management

### What is Leachate?

Leachate is a liquid that flows / oozes out of a potentially solid waste or toxic material, while doing so collects various elements or entities present in the solid material and eventually seeps through every available path and contaminate every thing which ever it touches including the most precious ground water. Leachate travels great distances if not checked or addressed.

So far every municipal organization on the planet has failed in managing this Leachate menace till date.

### Major problems posed by Leachate:

1. Bad smell / stench
2. Toxic elements seeping into surrounding biosystems / ecosystems and ground water that can harm well being of every life form.
3. Disease causing pathogens including Multiple Drug Resistance (MDR) bacteria that can wreak havoc to every animal life including humans.
4. Mutagens that can cause neonatal collapse.

### Leachate Clarificare:

#### 1. What is Leachate Clarificare?

Leachate Clarificare is the Trade name of the service that is offered by NTHRYS OPC PRIVATE LTD operated by Greenservices Division. NTHRYS Greenservices Team executes the entire service from the beginning to end once the service is commenced. Leachate Clarificare Service uses customized Environmental probiotics formulation that is designed exclusively for this purpose using 60+ natural strains which can remove every type of problem posed by Leachate.

#### 2. Whom do we offer this service?

We offer this service to the legitimate Solid Landfill Managing bodies that face Leachate problem.

#### 3. How do we offer this service?

NTHRYS GREENSERVICES TEAM (NGST) treats Leachate with customized Leachate Clarificare Formulation (**LCF**) that is made exclusively for the selected **Leachate** based on the **Pollutant** / toxic / pathogen **Profile (LPP)** of that specific Leachate. LCF changes for every 4 days based on the input LPP. LPP is done using Chemical, Biochemical, Oncological, Microbial, Molecular, Viral, and Pathological analysis using standard procedures in respective field.

4. **How much does it cost?**

Please visit [here](#) to get cost details. NGST will assist in calculating the exact cost at the time of signing agreement.

5. **How do we help Municipal Corporations to come out clean from existing Green Tribunal Legal Cases if any?**

Simple. 99.99% of every NGT Legal Case is focused on the unsolved problem. We solve it. Trust us. We mean it. We have zero tolerance in any Municipal Corporation who approach us with corrupted intent. We are here to serve genuinely. Approach us if you want us to solve the issue. We will ofcourse solve the issue and inturn Honorable Judges will be kind enough to close the case.
