50 Active Categories	15 Focused Areas	Bengaluru Accommodation Location
-------------------------	---------------------	-------------------------------------

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Molecular Biophysics Internship Topics and Focused Areas

AI Phase Separation Biophysics Research

- Machine Learning Models for Phase Separation Prediction
- Molecular Dynamics Simulations of Biomolecular Condensates
- AI-Driven Design of Synthetic Phase-Separating Systems
- Image Analysis and Computer Vision for Condensate Quantification
- Coarse-Grained Modeling and Multi-Scale Simulation Integration

Molecular Docking and Virtual Screening

- Structure-Based Drug Discovery for Disease Targets
- Virtual Screening Pipeline Development and Validation

- Protein-Ligand Interaction Analysis and Binding Mechanism Elucidation
- De Novo Drug Design and Scaffold Optimization
- Polypharmacology and Off-Target Prediction in Drug Candidates

Surface Plasmon Resonance Biosensing

- SPR Sensor Development and Optimization
- Protein-Ligand Interaction Kinetics Analysis
- Label-Free Biomarker Detection Method Development
- Surface Chemistry and Functionalization Strategies
- Multi-Analyte SPR Array and Multiplexing Studies
