

Molecular Genetics Internship with Accommodation at Kochi

This PDF is generated dynamically from the current NTHRYS ASCEND database for **Molecular Genetics**.

Source page:
<https://www.nthrys.com/molecular-genetics-internship-with-accommodation-at-kochi.html>

50 Active Categories	20 Focused Areas	Kochi Accommodation Location
--------------------------------	----------------------------	--

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Molecular Genetics Internship Categories

AI Gene Regulation & Transcription Research https://internships.nthrys.com/molecular-genetics/ai-gene-regulation-transcription-research	Machine Learning Genetic Variant Effect Research https://internships.nthrys.com/molecular-genetics/machine-learning-genetic-variant-effect
AI Epigenetic Modification Research https://internships.nthrys.com/molecular-genetics/ai-epigenetic-modification-research	AI CRISPR Genetics Application Research https://internships.nthrys.com/molecular-genetics/ai-crispr-genetics-application-research
AI Imprinting & Non-Mendelian Research https://internships.nthrys.com/molecular-genetics/ai-imprinting-non-mendelian-research	AI Transposon Biology Research https://internships.nthrys.com/molecular-genetics/ai-transposon-biology-research
AI Alternative Splicing Research https://internships.nthrys.com/molecular-genetics/ai-alternative-splicing-res	AI RNA Interference Research https://internships.nthrys.com/molecular-genetics/ai-rna-interference-research
AI Non-Coding Genome Function Research https://internships.nthrys.com/molecular-genetics/ai-non-coding-genome-function-research	AI Chromosome Organization Research https://internships.nthrys.com/molecular-genetics/ai-chromosome-organization-research
DNA Sequencing Technology Development https://internships.nthrys.com/molecular-genetics/dna-sequencing-technology-development	Genome Assembly Computational Methods https://internships.nthrys.com/molecular-genetics/genome-assembly-computational-methods
SNP Detection and Validation Studies https://internships.nthrys.com/molecular-genetics/snp-detection-and-validation-studies	Copy Number Variation Analysis Research https://internships.nthrys.com/molecular-genetics/copy-number-variation-analysis-research

Molecular Genetics Internship Topics and Focused Areas

AI Gene Regulation & Transcription Research

- Deep Learning Models for Transcription Factor Binding Prediction
- CRISPR-Based Gene Regulation Mapping
- Single-Cell RNA-seq Analysis of Transcriptional Heterogeneity
- Epigenetic Modifications and Chromatin Accessibility Studies
- Natural Language Processing for Mining Regulatory Literature

DNA Sequencing Technology Development

- Next-Generation Sequencing (NGS) Data Analysis Pipeline Development
- Long-Read Sequencing Technology Optimization
- Targeted Gene Sequencing and Panel Design
- Single-Cell Sequencing Protocol Development
- Portable and Field-Based Sequencing Technology Assessment

Mutation Screening in Genetic Diseases

- SNP and Indel Detection in Candidate Genes
- Sanger Sequencing and Mutation Validation
- Copy Number Variation (CNV) Analysis in Disease Pathogenesis
- High-Throughput Mutation Screening Using NGS
- In Silico Pathogenicity Prediction and Variant Classification

DNA Fingerprinting and Genotyping

- STR (Short Tandem Repeat) Analysis and Population Genetics
- SNP Genotyping and Genome-Wide Association Studies (GWAS)
- DNA Barcoding and Species Identification
- Forensic DNA Profiling and Case Analysis
- Mitochondrial DNA Sequencing and Maternal Lineage Tracking
