Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Petroleum Microbiology Internship Topics and Focused Areas

AI Oil Reservoir Microbiology Research

- Machine Learning Models for Microbial Community Classification
- Predictive Analytics for Souring and Corrosion Risk Assessment
- Deep Learning for Microbial Metabolic Pathway Analysis
- Natural Language Processing for Petroleum Microbiology Literature Mining
- Computer Vision and Image Analysis for Microbial Growth Monitoring

AI Biofuel Petroleum Microbiology Research

- Microbial Consortium Engineering for Biocrude Production
- Biodegradation Pathways of Petroleum Hydrocarbons
- AI-Driven Prediction of Microbial Fermentation Kinetics
- Metagenomic Analysis of Oil Reservoir Microbiomes
- Synthetic Biology Approaches for Enhanced Biofuel Production

Produced Water Microbial Community Profiling

- 16S rRNA Gene Sequencing and Taxonomic Classification
- Metagenomic Analysis and Functional Gene Identification
- Cultivation and Isolation of Extremophilic Microorganisms
- Temporal and Spatial Microbial Community Dynamics
- Biofilm Formation and Microbial Interactions in Reservoir Conditions

Microbial Community Succession Oil Spill Remediation

- Temporal Dynamics of Microbial Community Composition in Oil-Contaminated Environments
- Hydrocarbon-Degrading Microbial Isolation and Characterization
- Microbial Consortium Development for Bioremediation Enhancement
- Environmental Factor Influence on Microbial Succession Patterns
- Functional Gene Analysis and Metabolic Pathway Reconstruction in Oil-Degrading Communities
