Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Pharmacovigilance Internship Categories

AI Adverse Drug Event Detection Research https://internships.nthrys.com/pharmacovigilance/ai-adverse-drug-event-detection-research	Machine Learning Signal Detection Research https://internships.nthrys.com/pharmacovigilance/machine-learning-signal-detection-research

Pharmacovigilance Internship Topics and Focused Areas

Machine Learning Signal Detection Research

- Adverse Event Classification using NLP and Deep Learning
- Temporal Pattern Recognition in Drug Safety Signals
- Drug-Drug Interaction Signal Detection using Graph Neural Networks
- Anomaly Detection in Adverse Event Reporting Databases
- Predictive Risk Stratification for Severe Adverse Events

Spontaneous Reporting System Data Mining Research

- Adverse Event Signal Detection and Statistical Analysis
- Natural Language Processing for Adverse Event Narrative Mining
- Pharmacokinetic-Pharmacodynamic Pattern Recognition in Reporting Data
- Comparative Safety Profile Analysis and Benchmarking
- Machine Learning Models for Serious Adverse Event Prediction and Prioritization

Pharmacogenomics Safety Interaction Research

- CYP450 Drug-Drug Interaction Profiling
- Pharmacogenetic Variant Assessment in Adverse Events
- Population-Specific Pharmacogenomic Risk Stratification
- Post-Market Surveillance Signal Detection with Genomic Data
- Drug-Gene Interaction Documentation and Clinical Implementation

Clinical Trial Safety Data Analysis Research

- Adverse Event Signal Detection and Mining
- Safety Data Integration and Management
- Causality Assessment in Drug Safety
- Risk Stratification and Safety Population Analysis
- Serious Adverse Event Reporting and Expedited Surveillance

Medication Adherence and Safety Research

- Patient Adherence Pattern Analysis in Chronic Disease Management
- Drug-Drug Interaction Safety Assessment and Patient Education Materials
- Adverse Event Reporting Related to Non-Adherence
- Digital Health Interventions and Adherence Tracking Technologies
- Health Literacy and Medication Safety Communication Research

Cancer Therapy Adverse Event Profiling Research

- Immunotherapy-Related Adverse Events Signal Detection
- Cardiotoxicity Risk Assessment in Targeted Cancer Agents
- Drug-Drug Interaction Adverse Events in Oncology Polypharmacy
- Real-World Safety Outcomes and Comparative Effectiveness Analysis
- Rare and Delayed Adverse Events Case Characterization
