Accommodation Location

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Soil Microbiology Internship Topics and Focused Areas

Phosphate Solubilizing Microbes Bioavailability

- Isolation and Characterization of Phosphate Solubilizing Bacteria from Agricultural Soils
- In Vitro Assessment of Phosphate Solubilization Mechanisms
- Plant Growth Promotion Potential of Phosphate Solubilizing Microbes in Controlled Experiments
- Biofilm Formation and Persistence of Phosphate Solubilizing Microbes in Soil Environments
- Development of Microbial Consortia for Enhanced Phosphate Bioavailability

Lignin Degrading Fungi Soil Ecology

- Isolation and Characterization of Lignin-Degrading Fungi from Forest Soils

- Enzymatic Degradation Pathways and Ligninase Production
- Soil Community Dynamics and Fungal-Bacterial Interactions in Lignin Decomposition
- Lignin Mineralization and Carbon Cycling in Agricultural and Forest Soils
- Screening for Ligninolytic Fungi with Bioremediation and Biotechnological Applications
