

## **Eco-Biotechnology Summer Internships**

Join Eco-Biotechnology summer internships to explore the integration of biological systems with environmental technologies, focusing on bioremediation, sustainable practices, and eco-friendly innovations in biotechnology.

### **Focussed Areas under Eco Biotechnology Summer Internship**

1. Bioremediation technologies for environmental cleanup
2. Sustainable biotechnology solutions for waste management
3. Microbial ecology and its role in environmental sustainability
4. Biotechnology for soil and water purification
5. Eco-friendly biotechnology in agriculture
6. Biotechnological applications for renewable energy
7. Phytoremediation for soil and water restoration
8. Microbial fuel cells for energy production
9. Biodegradation of pollutants using biotechnology
10. Waste-to-energy technologies
11. Bioaugmentation techniques for environmental restoration
12. Biotechnology for carbon capture and storage
13. Biotechnology applications in climate change mitigation
14. Sustainable agricultural biotechnology practices
15. Microbial consortia for environmental sustainability
16. Eco-friendly industrial biotechnology processes
17. Eco-biotechnology for sustainable food production
18. Recycling technologies in eco-biotechnology
19. Biotechnology for marine and aquatic ecosystem restoration
20. Eco-friendly bioplastics development

### **Protocols Covered across various focussed areas under Eco Biotechnology Summer Internship**

1. Bioremediation of soil and water pollutants
2. Microbial fuel cell setup for energy production
3. Phytoremediation protocols for environmental restoration
4. Bioaugmentation techniques for pollutant degradation
5. Biotechnology for carbon capture and storage
6. Biodegradation protocols for organic pollutants
7. Microbial ecology studies for environmental sustainability

8. Sustainable agricultural biotechnology practices
9. Waste-to-energy conversion techniques
10. Eco-friendly bioplastic production protocols

**Duration: 5, 10, 15, 20, and 30 Days**

**Note: Please cross confirm whether internship slots for this field are available before joining.**
