Embryology Projects at NTHRYS

It develops professional competence in microscopy, model systems, documentation, and laboratory rigor

A project in Embryology builds deep understanding of development, cell fate decisions, and congenital mechanisms. It develops professional competence in microscopy, model systems, documentation, and laboratory rigor. It supports industrial applications in IVF, reproductive health, developmental toxicology, and safety assessment

Embryology Project Fee Structures			
Duration	**Academic Mode**	**Professional Mode**	**Industrial Mode**
5 Days	Rs 8250	Rs 18150	Rs 26400
10 Days	Rs 9900	Rs 21450	Rs 29700
15 Days	Rs 10890	Rs 23100	Rs 36300
20 Days	Rs 14850	Rs 29700	Rs 42900
30 Days	Rs 16500	Rs 36300	Rs 52800
45 Days	Rs 19800	Rs 42900	Rs 62700
2 Months	Rs 23100	Rs 59400	Rs 82500
3 Months	Rs 26400	Rs 75900	Rs 99000
4 Months	Rs 39600	Rs 92400	Rs 132000

5 Months	Rs 49500	Rs 112200	Rs 148500
6 Months	Rs 59400	Rs 132000	Rs 181500
7 Months	Rs 62700	Rs 165000	Rs 198000
8 Months	Rs 69300	Rs 198000	Rs 247500
9 Months	Rs 79200	Rs 247500	Rs 313500
10 Months	Rs 95700	Rs 290400	Rs 363000
11 Months	Rs 105600	Rs 313500	Rs 445500
1 Year	Rs 125400	Rs 330000	Rs 495000

18% additional GST on all fee structures.

Installment options are available for all durations.

Offline Timetable

3 - 5 Hours per day | 4 Days Practicals / week | 1 Day Reporting

Weekly Schedule

Tuesday to Friday: Practical Sessions
Saturday: Documentation Day
Sunday & Monday: Weekend Holidays

Lab Working Hours

9:30 AM to 5:30 PM

Students/Scholars are assigned **3 to 5 hours/day** based on their protocols.

Online Mode Workflow

2 to 4 hours per day as per discussed with NTHRYS Management before booking the slot.

All activities (Online / Virtual and Offline) are managed through the **NTHRYS Project Dashboard System** — a web portal designed exclusively to facilitate, guide, and track your progress throughout each phase.

Phase 1: Topic / Title Finalization

Guided assistance in selecting and refining your research topic or project title within the dashboard interface.

Phase 2: Research Methodology Finalization

Step-by-step guidance in defining objectives, research questions, and methodology using interactive templates and mentor feedback on the dashboard.

Phase 3: Software, Tools, and Statistical Approaches

Installation assistance, tool demonstrations, and access to recommended software provided via the dashboard with mentor instructions and documentation.

Phase 4: Task Execution

Students/scholars execute research tasks on their own systems while mentors monitor and guide progress through the dashboard system.

Phase 5: Results Analysis

Data analysis, results review, and interactive discussions are facilitated through dedicated dashboard modules ensuring research integrity.

Phase 6: Documentation

Proper documentation of results, methodology, and conclusions using dashboard templates, ensuring consistency and completeness.

No Video Calls, No Theory Classes: All learning is task-based, with hands-on execution by students/scholars under the guidance of mentors using the **NTHRYS Project Dashboard System**.

Important Note
Note 1: Candidates may select any one of the focused areas listed for their project work.
Note 2: Fundamental concepts are provided as guidance for candidates who require them; however, candidates may choose to bypass these sections if desired.
Note 3: All candidates will gain practical, hands-on experience with every step outlined in the provided methodology.
Note 4: Comprehensive placement assistance and career guidance will be available to all candidates during and after the project.
Note 5: We understand that many students may lack basic practical exposure due to shortcomings in their college education. This is not the fault of the students but rather a failure of the institutions and their staff. At NTHRYS, our staff excel at training every student from the ground up, ensuring they gain the necessary skills and experience.
