

NTHRYS WORKSHOPS

Functional Domain Prediction In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Domain Prediction in Disease Research

Overview of the importance of domain prediction in disease research.
Hands-on session on identifying disease-related domains.
Case studies on the impact of domain prediction in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Domain Prediction in Drug Discovery

Exploring the role of domain prediction in drug discovery.
Workshop on using domain prediction to identify drug targets.
Case studies on the applications of domain prediction in pharmaceutical research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Domain Prediction in Personalized Medicine

Hands-on session on using domain prediction in personalized medicine.

Exploring techniques for identifying patient-specific domains.

Practical applications of domain prediction in developing personalized therapies.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Domain Prediction

Workshop on translating domain prediction research into clinical practice.

Practical techniques for using domain prediction data in clinical settings.

Case studies on the impact of domain prediction on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.

Dialogue on overcoming challenges in adopting new technologies in similar sectors.

Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
