

NTHRYS WORKSHOPS

Immunology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Immunology in Disease Research

Overview of the importance of immunology in disease research.
Hands-on session on studying immune responses in diseases.
Case studies on the impact of immunology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Immunology in Cancer Research

Exploring the role of immunology in cancer research.
Workshop on using immunotherapy to treat cancer.
Case studies on the applications of immunology in cancer therapy.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Immunology in Infectious Diseases

Hands-on session on the immune response to infectious diseases.

Exploring techniques for studying pathogen-host interactions.
Practical applications of immunology in developing treatments for infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Immunology

Workshop on translating immunology research into clinical practice.
Practical techniques for using immunological data in clinical settings.
Case studies on the impact of immunology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
