Innovations In Immunohistochemistry

8:45 AM - 10:15 AM: Session 1: Emerging Technologies in Immunohistochemistry

Introduction to emerging technologies in immunohistochemistry.
Hands-on session on using advanced tools and techniques in immunohistochemical research.
Case studies on innovative applications of new technologies in immunohistochemistry.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: AI and Machine Learning in Immunohistochemistry

Exploring the role of AI and machine learning in immunohistochemistry.
Workshop on developing predictive models for tissue analysis.
Case studies on the application of AI in immunohistochemical research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Integrative Omics in Immunohistochemistry

Hands-on session on integrating multi-omics data in immunohistochemistry.
Exploring techniques for combining genomics, proteomics, and metabolomics.
Practical applications of integrative omics in immunohistochemical research.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Future Directions in Immunohistochemistry

Discussion on emerging trends and future directions in immunohistochemistry.
Workshop on integrating new technologies in immunohistochemical research.
Case studies on the potential impact of future innovations in immunohistochemistry.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.
Certificate Issue

5:30 PM: Workshop Concludes
