

## Medical Biochemistry Summer Internships

Join Medical Biochemistry summer internships to explore the biochemical processes underlying human health and disease, focusing on metabolic pathways, enzyme function, molecular diagnostics, and therapeutic development for various diseases.

### Focussed Areas under Medical Biochemistry Summer Internship

1. Metabolic pathways in human health and disease
2. Enzyme kinetics and regulation in medical biochemistry
3. Biochemical markers for disease diagnosis
4. Molecular diagnostics in clinical biochemistry
5. Biochemistry of cancer progression and treatment
6. Lipid metabolism and cardiovascular diseases
7. Role of proteins in disease and therapy
8. Biochemical basis of genetic disorders
9. Nucleic acid biochemistry in diagnostics and treatment
10. Metabolomics and disease biomarkers
11. Oxidative stress and antioxidant defense in diseases
12. Drug metabolism and pharmacokinetics
13. Biochemistry of neurodegenerative diseases
14. Biochemistry of infectious diseases
15. Molecular mechanisms of hormone regulation
16. Clinical biochemistry in personalized medicine
17. Biochemical pathways in metabolic disorders
18. Protein structure-function relationships in health
19. Therapeutic enzymes and their clinical applications
20. Emerging technologies in clinical biochemistry

### Protocols Covered across various focussed areas under Medical Biochemistry Summer Internship

1. Enzyme kinetics measurement protocols
2. Biochemical assays for disease biomarkers
3. Molecular diagnostics using nucleic acid biochemistry
4. Lipid metabolism analysis techniques
5. Oxidative stress measurement protocols in clinical biochemistry
6. Protein structure and function analysis in disease

7. Drug metabolism and pharmacokinetic assays
8. Metabolomics workflows for biomarker discovery
9. Biochemical pathways analysis for metabolic disorders
10. Therapeutic enzyme development protocols

**Duration: 5, 10, 15, 20, and 30 Days**

**Note: Please cross confirm whether internship slots for this field are available before joining.**
