

Medical Microbiology Job Oriented Training Program

This program prepares candidates for direct placement into roles in hospital microbiology labs, private diagnostic services, and pharma QC labs, through diagnostic training, case-based interpretation, and communication modules.

Note: Below modules are designed keeping high end industrial professionals into consideration. Please refer individual protocols below for affordable prices.

Clinical Microbiology Lab Readiness

Kindly review the fees outlined for the individual protocols listed in this module.

- Fungal culture and identification in clinical settings
- Basic virology diagnostic principles using ELISA and rapid kits
- Antimicrobial susceptibility testing and antibiogram preparation
- Sample entry, coding, storage, and LIS software basics

Professional Communication and Career Skills

Kindly review the fees outlined for the individual protocols listed in this module.

- Case presentation and interpretation of diagnostic outcomes
- Lab-based problem solving and critical incident response
- Resume writing, cover letter, and interview preparation
- Mock interviews and interaction with industry professionals

Workplace Ethics and Applied Standards

Kindly review the fees outlined for the individual protocols listed in this module.

- Patient confidentiality and medical data handling
- Reporting formats and interaction with clinicians
- Time management and multitasking in high-throughput labs

- Standardization and audit preparedness in job roles

Individual Protocols Under Medical Microbiology Job Oriented Training Program

1. Routine bacteriological testing: sputum, urine, blood, and swabs | **Fee: Contact for fee**
2. Fungal culture and identification in clinical settings | **Fee: Contact for fee**
3. Basic virology diagnostic principles using ELISA and rapid kits | **Fee: Contact for fee**
4. Antimicrobial susceptibility testing and antibiogram preparation | **Fee: Contact for fee**
5. Sample entry, coding, storage, and LIS software basics | **Fee: Contact for fee**
6. Documentation of patient test reports and lab logs | **Fee: Contact for fee**
7. Case presentation and interpretation of diagnostic outcomes | **Fee: Contact for fee**
8. Lab-based problem solving and critical incident response | **Fee: Contact for fee**
9. Resume writing, cover letter, and interview preparation | **Fee: Contact for fee**
10. Mock interviews and interaction with industry professionals | **Fee: Contact for fee**
11. Hospital lab safety and biohazard management | **Fee: Contact for fee**
12. Patient confidentiality and medical data handling | **Fee: Contact for fee**
13. Reporting formats and interaction with clinicians | **Fee: Contact for fee**
14. Time management and multitasking in high-throughput labs | **Fee: Contact for fee**
15. Standardization and audit preparedness in job roles | **Fee: Contact for fee**
