

Pharmacovigilance Summer Internships

Join Pharmacovigilance summer internships to explore the monitoring and evaluation of drug safety, focusing on adverse drug reaction (ADR) reporting, drug safety surveillance, risk management, and the use of real-world data to improve patient outcomes.

Focussed Areas under Pharmacovigilance Summer Internship

- 1. Adverse drug reaction (ADR) monitoring and reporting
- 2. Drug safety surveillance and risk management
- 3. Pharmacovigilance in clinical trials
- 4. Post-marketing surveillance of drug safety
- 5. Real-world data analysis for drug safety monitoring
- 6. Pharmacovigilance in personalized medicine
- 7. Risk-benefit analysis of drugs
- 8. Regulatory frameworks for pharmacovigilance
- 9. Pharmacovigilance of biologics and biosimilars
- 10. Signal detection and risk assessment in pharmacovigilance
- 11. Pharmacovigilance in pediatric and geriatric populations
- 12. Drug safety monitoring in rare diseases
- 13. Pharmacovigilance in cancer therapies
- 14. Pharmacovigilance in vaccines and immunotherapies
- 15. Applications of artificial intelligence in pharmacovigilance
- 16. Pharmacogenetics in pharmacovigilance
- 17. Pharmacovigilance in cardiovascular drugs
- 18. Data mining and statistical analysis in drug safety
- 19. Case report management in pharmacovigilance
- 20. International standards and guidelines in pharmacovigilance

Protocols Covered across various focussed areas under Pharmacovigilance Summer Internship

- 1. Adverse drug reaction reporting protocols
- 2. Pharmacovigilance risk management workflows
- 3. Post-marketing surveillance data collection techniques
- 4. Signal detection methods in pharmacovigilance
- 5. Real-world data integration for drug safety analysis
- 6. Pharmacovigilance reporting protocols for biologics

- 7. Risk-benefit analysis techniques in drug safety monitoring
- 8. Pharmacovigilance case report processing workflows
- 9. Regulatory compliance protocols in pharmacovigilance
- 10. Pharmacovigilance data mining and statistical analysis techniques

Duration: 5, 10, 15, 20, and 30 Days

Note: Please cross confirm whether internship slots for this field are available before joining.
