

Protozoology Summer Internships

Join Protozoology summer internships to explore the study of protozoa, focusing on their biology, classification, ecological roles, and impact on human and animal health. Learn about parasitic protozoa, disease vectors, and the role of protozoa in ecosystems and biotechnology.

Focussed Areas under Protozoology Summer Internship

1. Biology and classification of protozoa
2. Parasitic protozoa and their life cycles
3. Protozoan diseases in humans and animals
4. Role of protozoa in ecological systems
5. Protozoa as vectors of disease
6. Molecular biology techniques in protozoology
7. Protozoa in waterborne diseases
8. Immunology of protozoan infections
9. Drug resistance in protozoan parasites
10. Biotechnology applications of protozoa
11. Protozoan genomics and proteomics
12. Protozoan-host interactions and pathogenesis
13. Protozoology in public health and epidemiology
14. Techniques for isolating and identifying protozoa
15. Protozoan biodiversity and environmental monitoring
16. Vector-borne protozoan diseases: malaria, leishmaniasis
17. Impact of climate change on protozoan ecosystems
18. Bioinformatics applications in protozoan research
19. Antiparasitic drug discovery for protozoan infections
20. Protozoa in marine and freshwater ecosystems

Protocols Covered across various focussed areas under Protozoology Summer Internship

1. Techniques for isolating and culturing protozoa
2. Molecular techniques for identifying parasitic protozoa
3. Immunological assays for protozoan infections
4. Protocols for studying protozoan-host interactions
5. Drug resistance screening in protozoan parasites
6. Genomic and proteomic analysis of protozoa
7. Waterborne protozoan detection techniques

8. Bioinformatics workflows for protozoan genomics
9. Protocols for vector-borne protozoan disease research
10. Environmental monitoring techniques for protozoan biodiversity

Duration: 5, 10, 15, 20, and 30 Days

Note: Please cross confirm whether internship slots for this field are available before joining.
