Service Segment - Data-Capture Readiness & Chain-of-Custody Charge: Rs 9800

Capture clean data and preserve provenance from day one. This segment sets up sample IDs, barcodes or QR codes, chain-of-custody forms, freezer maps and tidy data templates so every tube, plate and file can be traced from source to analysis.

Sample ID schema with barcode or QR implementation across batches

Chain-of-custody forms for handoffs, timestamps and transport conditions

Freezer map and storage location registry for samples and controls

Template pack for sample logs, checklists, labels and basic registers

Deviation flags and simple reconciliation workflow for missing or

swapped items

Data handoff to analysis with tidy schema mapping for
spreadsheets or LIMS
