- **Industrial Projects**

[Click Here to view Industrial Projects Process Walk through and Cost Breakdown](#)

- Development of Translational Research Platforms
- Applications of Translational Research in Drug Development
- Use of Translational Research in Biomarker Discovery
- Development of Clinical Trial Methods
- Applications of Translational Research in Cancer Therapy
- Use of Translational Research in Precision Medicine
- Development of Translational Research Databases
- Applications of Translational Research in Rare Diseases
- Use of Translational Research in Cardiovascular Diseases
- Development of Translational Genomics Tools
- Applications of Translational Research in Neurodegenerative Diseases
- Use of Translational Research in Infectious Diseases
- Development of Translational Immunotherapy Platforms
- Applications of Translational Research in Metabolic Disorders
- Use of Translational Research in Pediatric Diseases
- Development of Translational Bioinformatics Tools
- Applications of Translational Research in Regenerative Medicine
- Use of Translational Research in Environmental Health
- Development of Translational Data Integration Methods
- Applications of Translational Research in Genetic Counseling
- Use of Translational Research in Endocrinology
- Development of Translational Nutritional Programs
- Applications of Translational Research in Gastroenterology
- Use of Translational Research in Reproductive Health
- Development of Translational Toxicology Methods
- Applications of Translational Research in Public Health

- Use of Translational Research in Dermatology
- Development of Translational Data Analysis Software
- Applications of Translational Research in Ophthalmology
- Use of Translational Research in Hematology
