

Veterinary Microbiology Internship with Accommodation at Kolkata

This PDF is generated dynamically from the current NTHRYS ASCEND database for **Veterinary Microbiology**.

Source page:
<https://www.nthrys.com/veterinary-microbiology-internship-with-accommodation-at-kolkata.html>

50 Active Categories	15 Focused Areas	Kolkata Accommodation Location
--------------------------------	----------------------------	--

How to View Accommodation Details and Booking Options

1. Open the Internships page or the corresponding Topics page.
2. Select the relevant focused area.
3. Select the available duration, mode and internship type.
4. Choose **Offline** mode to access accommodation booking options.
5. Continue to the fee/payment page and use the **Branches Select Option**.
6. After selecting the branch, use **Book NTHRYS Accommodation** to view accommodation fee, facility photographs, amenities and the available booking details.

Veterinary Microbiology Internship Topics and Focused Areas

AI Animal Pathogen Genomics Research

- Pathogen Genome Assembly and Annotation
- Antimicrobial Resistance Gene Identification
- Phylogenomic Analysis and Molecular Epidemiology
- Virulence Factor Prediction and Functional Annotation
- Comparative Genomics for Host-Pathogen Interactions

AI Livestock Pathogen Research

- Machine Learning Models for Pathogen Classification
- Antimicrobial Resistance Pattern Recognition
- Real-time Disease Outbreak Detection Systems
- Microbiome Analysis and Pathogenic Interaction Mapping

- Deep Learning for Microscopy Image Analysis in Pathogen Identification

Anaerobic Microbiology in Animal Infections

- Isolation and Characterization of Anaerobic Bacteria from Animal Clinical Specimens
- Antimicrobial Susceptibility Testing of Anaerobes in Veterinary Pathogens
- Pathogenic Role of Anaerobes in Animal Wound and Abscess Infections
- Anaerobic Microbiota Analysis in Animal Gastrointestinal and Oral Disorders
- Virulence Factor Expression and Biofilm Formation in Veterinary Anaerobes
